EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a. **Cancel claims 4-9.**

2. Claims 1-3 are allowed.

3. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests a mask read only memory (ROM) which uses the exact trench isolation system for buried layers in the area between the memory array and select regions as specified by the applicant.

4. Wann et al. (USPN 6,087,699) discloses a mask ROM with an isolating structure. However this isolation structure is a field oxide region. Thus the Wann structure does not disclose the applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
